

Finish the Picture

1. Print out one photo per 2 – 4 children.
2. Cut the photo in 2 – 4 pieces.
3. Glue 1 portion of the photo on a piece of white construction paper.
4. Give the children markers or crayons and let them “finish the picture”, drawing what is missing. For example, if the child got the piece of the photo with the head, glue it towards the top of the paper and draw in the neck, lower body, and tree.
